

# Watch Next Sunday's Times-Dispatch

It will give you an extremely pleasant surprise, even though we are trying now to prepare you for the many delightful new features that will appear at that time.

With new presses and typesetting machines The Times-Dispatch is now able to add a great number of new and interesting features to its Daily and Sunday editions.

No expense has been spared in purchasing the very best equipment, in order that we might make a larger and better newspaper. When you see next Sunday's Times-Dispatch you will agree that we have succeeded in producing a newspaper of which the entire South may be justly proud. The new features and wire service that will be added to the Daily and Sunday Times-Dispatch will be a source of much pleasure to our readers.

## Four Pages of Comics in Colors

The Katzenjammer Kids will frolic into the Sunday Times-Dispatch. The antics of Happy Hooligan will be there to make you laugh with all the fresh enjoyment of a child no matter what your age. Mr. Batch, too, and Jimmy, and the rest of the dear, funny folk who amuse millions of old and young every Sunday. No one would willingly deprive himself of the good fun to be found in these best of comics, and even if he could do without it himself the kiddies will never let him off until he brings that funny paper to them every week.

## A Feature Section of Eight Pages

This section will eclipse anything ever before printed in Richmond. It will be full of the most thrilling news-stories, latest discoveries in science told in a masterly way. Tales of explorers and adventures in all parts of the world, with full accounts of the lives of prominent people now before the public. This section will be most fascinating, and will be sure to interest you. Artistic and striking pictures and illustrations will be found in this section.

# National and International News Service

In addition to the celebrated Associated Press, the Daily and Sunday Times-Dispatch will hereafter have the complete wire and feature service of the National News Service, and International News Service. If anything occurs anywhere you will be sure of finding it in The Times-Dispatch, written by the ablest writers in the world. Exclusive and popular features will be there to delight you.

## FOUR CANDIDATES FOR MIDSHIPMEN

Examination Conducted at Appomattox—Measles Still Prevalent.

[Special to The Times-Dispatch.] Appomattox, Va., February 16.—Candidates for appointment to the Naval Academy at Annapolis by Congressman H. D. Flood, of the Tenth Congressional District, stood an examination here yesterday at the Appomattox Agricultural High School under Principal L. Crawley. Those who stood the examination were: Dan P. Moses, Appomattox County; Camm Sutton, Buckingham County; Edward Rogers, Nelson County, and M. A. R. Lott, Augusta County. One principal and two alternates will be selected, and the one making the highest grade will be selected as principal. The candidates who are appointed by Mr. Flood will stand the entrance examination in June, and if successful, will enter the academy at once for a term of eight years, four years as a student at Annapolis, and receive a salary of \$600 per year for every year in attendance. Miss Anne Eldgood, who has been a teacher in the Appomattox Agricultural High School, was tendered a position in the Lynchburg city schools, and having secured permission to leave, has accepted the position. Owing to the great decrease in attendance at school, due to the epidemic of measles, the authorities relieved her for the remainder of the session, and her work will be conducted by other assistants in the school.

Measles is still prevailing in the neighborhood, and some new cases have been reported. There has been only one death so far. The fifteen-month-old baby of Neil Harvey, of this county, died this week, after a short

attack. The entire family, consisting of parents and two children, were down with the disease when the child died, but some are recuperating now. Weather for the past week has been cold, and while ice formed to about one inch thick, no ice-houses have been reported filled. The sales of tobacco also have not been so heavy as last week, and it is thought that the greater part of the crop has been sold. Wheat is looking well, but many of the farmers are fearing the fly in wheat due to the moderately warm weather.

### MARRIED IN NORFOLK.

Ceremony Performed During Christmas Holidays Just Announced.

[Special to The Times-Dispatch.] Wake Forest, N. C., February 16.—The college community was greatly surprised yesterday by the announcement of the marriage of R. E. Green, of Rutherfordton, N. C., and Miss Pearl Cross, of Wake Forest. The marriage was celebrated at the Monticello Hotel, Norfolk, Va., during the Christmas holidays, and had been kept a secret until the present time. Mr. Green is one of the most popular men in college here, being president of the junior class. Miss Cross has made her home here for the last four years with her sister, Mrs. J. R. Crosier, wife of the physical director of Wake Forest College. She is at present a member of the faculty of Murphy's School, Raleigh, N. C. She will continue in this position for the remainder of this year, while Mr. Green will continue to pursue his work in college.

### SKYSCRAPER FOR LYNCHBURG.

Bank Awards Contract for Erection of Eleven-Story Building. [Special to The Times-Dispatch.] Lynchburg, Va., February 16.—The People's National Bank yesterday awarded the contract for the erection of an eleven-story banking and office building here, the contractors being Metzger & Wells, of Philadelphia. The building will be fireproof and will represent an outlay of about \$250,000. This will be the tallest building in Virginia west of Richmond. The old building on the site has been razed, and the contractors will start work next week.

## ELECTRIC RAILWAY LINE MAY BE BUILT

Definite Movement for Road From Bluemont to Winchester.

[Special to The Times-Dispatch.] Winchester, Va., February 16.—Notwithstanding the fact that numerous reports have been circulated during the past few years to the effect that plans were being formulated for the building of an electric railway line eastward from Bluemont, Loudoun County, through Berryville to Winchester and vicinity, only to be denied by someone said to be interested, it was learned last night that a definite movement is on foot with the building of the road in view, and the latest reports were given credence by one of the most prominent officials of the Winchester and Washington City Railway Company, which will probably be called upon to furnish the motive power. It was also stated that a detailed survey has been made eastward from Bluemont as far as Berryville, the seat of Clarke County, by engineers in the employ of the company which recently took over the Washington-Bluemont branch of the Southern Railway and converted it into an electric line. The distance from Bluemont to Berryville is about sixteen miles. The Winchester and Washington City Railway Company's charter empowers it to operate such a line as it is proposed to be built, but up to this time it has confined itself to supplying electricity from two large water and steam-power plants situated near the Shenandoah River at Millville, Jefferson County, W. Va., to Winchester; Berryville, Charleston, Martinsburg and many smaller towns and villages for municipal lighting and commercial and household purposes. A large number of manufacturing plants are also using the current supplied by that company. It was only recently that additional machinery was installed at Millville, by which the capacity of the plants has been greatly increased.

Judge Adam C. Carson, of the Supreme Court of the Philippine Islands, whose name, it has been announced, will be presented to President Wilson as worthy of favorable consideration in connection with the governor-generalship of the islands, is expected to arrive in Winchester some time this week, the steamer on which he sailed recently from Manila having been reported by wireless as being only a day out from San Francisco. Mrs. Carson

and her two young children came several months ago, and are now at the home of her mother, Mrs. S. L. Conrad, in this city. Judge Carson's home is at Riverton, where he practiced law for a number of years after graduating from the University of Virginia. He also practiced law in Winchester, having been a law student of Richard Evelyn Byrd, who managed the Wilson campaign in Virginia last spring and summer, and who is an intimate friend of the President-elect. When the Spanish-American war broke out, Judge Carson went to the front, and was shortly placed in command of a company of yellow fever immunes in Cuba. He went from there to the Philippines, and when the Supreme Court was created he was appointed as associate justice.

Some of the Confederate veteran camps in the Virginia Valley have called special meetings for the purpose of considering the matter of attending the Blue and Gray reunion at Gettysburg next July, and it is expected that this section of the State will be creditably represented.

The board of directors of the Shenandoah Valley Agricultural Society, at a meeting here yesterday afternoon, added two new races to the trials of speed program for the next annual Winchester fair, and also appropriated an additional sum of \$400 for the racing department, making the total over \$2,000. The local society, which is already a member of the National Trotting Association, has recently been added to the Pen-Mar circuit, which includes the interstate and intercounty fairs at Hagerstown, Frederick, York, Lancaster, Hanover and several other places. W. L. Fultz was elected superintendent of grounds, and Joseph Wright was continued as secretary of the racing department.

County Commencement. [Special to The Times-Dispatch.] Salisbury, N. C., February 16.—Under the direction of Professor R. G. Kizer, county superintendent of public instruction, a county commencement has been arranged for to be held in Salisbury March 25. It is expected 3,000 school-children from all sections of Rowan will be on hand for the exercises. A long list of cash prizes has been offered for the best work in declamations and recitations. Much interest is being taken in the coming event. All the schools in the county have been asked to co-operate.

## MANY CANDIDATES OUT FOR OFFICE

Claims Will Be Considered by Ninth District Executive Committee.

[Special to The Times-Dispatch.] Bristol, Va., February 16.—Looking to an arrangement whereby the Western district of Virginia will receive a liberal share of the patronage to be distributed under the Wilson administration, the Democratic executive committee of the Ninth Virginia district is scheduled to meet in Bristol next Thursday, at which time the situation will be gone over and the claims of candidates for different positions considered. There are many hungry party men after so many years without a Democratic regime, and it is expected that this meeting will be largely attended by candidates and their friends.

The committee hopes to be able to make an arrangement by which either the collectorship of internal revenue or the marshalship will come to the Ninth District.

As to the positions of collector and marshal, there are several candidates in the Southwest for each of these positions. Among those whose candidacy has been announced, and a part of whom have been endorsed by their respective county organizations, are: For the collectorship—Peyton P. St. Clair, of Giles; Henry S. Kane, of Scott; Captain Thomas L. Tate, of Pulaski; David A. Preston, of Abingdon; W. L. Denny, of Grundy; Buchanan County, and Colonel H. C. Jones, of Bristol. For the marshalship—Judge James W. Orr, of Lee; O. B. Jordan, of Dublin; A. H. Williams, of Wythe. The Rev. R. K. Sutherland, following action by the board of trustees of Emory and Henry College, the Methodist male school of Southwest Virginia, has launched a campaign to raise \$75,000 within the bounds of Holston conference for the endowment fund of the school. He is confident he will succeed in the undertaking, since the Methodists realize that upon his success depends an endowment of \$200,000. The Rockefeller Foundation board has offered \$75,000 and Andrew Carnegie \$50,000, each conditioned upon the raising of \$75,000 among the people of the conference.

Dr. Charles O. Gray, president of Tusculum College, an old Presbyterian school of East Tennessee, announces \$140,000 secured recently for the endowment fund of his school. Mayor L. H. Gammon, who has served two terms as executive officer

of Tennessee Bristol, has announced himself a candidate for re-election, subject to the May election. It is said that Dr. N. H. Reece, for twenty years a member of the aldermanic board, expects to be a candidate for Mayor also.

A city-wide revival of religion was inaugurated here to-day, with special services in all the churches. All denominations are interested. The Rev. L. S. Shaffer, a noted Bible teacher of New York, has been preparing the churches for this meeting. The principal business houses have agreed to co-operate by closing one hour each day for the afternoon services.

### VERDICT AGAINST CITY.

Suit for \$5,000 for Damages to Private Property.

[Special to The Times-Dispatch.] Lynchburg, Va., February 16.—In the City Circuit Court yesterday a Campbell County jury returned a verdict against the city in the suit of

C. S. Hutter against the city of Lynchburg.

Hutter sued for \$5,000, claiming the city damaged him to that extent by the improvement of McKinley Avenue, a full being made in front of a lot belonging to him. A motion for a new trial will be argued before Judge Burksdale on March 6. If this is refused the city will take an appeal.

DAMAGE WILL REACH \$35,000.

Repairs Rushed at Plant of Charlottesville Power Company.

[Special to The Times-Dispatch.] Charlottesville, Va., February 16.—It is now estimated that the damage resulting from the bursting of the flywheels at the power house of the Charlottesville and Albemarle Railway Company yesterday will total \$35,000.

Repairs at the plant were rushed to-day, and at 3 o'clock the electric cars were started, and to-night lights were turned on throughout the city.

Rates for money sent by telegraph will be reduced March 1, 1913.

The Western Union money transfer service reaches practically every town and city in the United States and Canada and every post office in Great Britain, Holland and Belgium.
